RELEVANT EXPERIENCE

Feeling Good App

10/ 2022 - 05/2023

Software Developer Intern

During my internship at Feeling Good, a mental health start-up company, I played a key role in enhancing both the content and technical functionality of the app. I updated the existing content, added new materials, and streamlined the onboarding process by creating test codes for subscribers and QR codes. Additionally, I designed and built a WordPress Audio Player, improving the accessibility of content. My dedication to quality assurance included thorough app testing to identify and report bugs, along with focused accessibility testing to ensure individuals with diverse needs could use the app.

Story Valley - Erasmus+

03/2022 - 09/ 2022

Web Developer Intern

I collaborated with international students in Slovenia on an Erasmus+ project, actively contributing to a design sprint. This involved creating mockups and high-fidelity prototypes using Figma. My dedication led to continued involvement with a live client, where I contributed to the first phase of project development and provided progress updates in weekly meetings. This experience sparked my interest in accessibility design

OTHER EXPERIENCE

Marks and Spencer Edinburgh Airport

11/2015 - Present

Duty Manager

I was a trusted leader within the team, responsible for maintaining operational efficiency and supporting colleagues. This included completing daily shift planning, updating legal documentation, resolving day-to-day queries, handling essential administrative tasks (counts, checks, banking, etc.), overseeing safety procedures, managing changes, and contributing to team development through appraisals, reviews, and training.

EDUCATION

Edinburgh Napier University

09/ 2020 - 05/2024

BSc (Hons) Web Design & Development
Predicted Grade 1:1

Edinburgh College

09/ 2019 - 05/ 2020

NPA Software Development and Web
SCQF level 6 - PASS
